

# Testimonials

We'd like to extend our gratitude to Concrete Designs of Ottawa for the recent work completed on our home. The external interlock stone wrapping around our property was in dire need of repair and water drainage was becoming an issue. After researching options we decided to replace all the existing stonework with colored stamped concrete which was a fairly big undertaking encompassing over 700 square feet of area. We couldn't be more happy with the result and still admire the finish every time we walk outside. We have received numerous compliments from neighbours and strangers alike who admire the new walkway and patio. Special thanks to Richard for educating us on both the product and process in addition to addressing any concerns we had along the way.

Thx again for everything,  
**Cathy & Brian**

---

One big advantage of stamped concrete vs interlock brick is there is no concern with weeds growing between the cracks. The product is virtually maintenance free. Richard from Concrete Designs takes the time to discuss options with his clients to determine the best solution for their project. Stamped concrete from Concrete Designs will increase the resale value of any home. Thank you Richard!

Potential Concrete Designs of Ottawa Customer:

Concrete Designs of Ottawa not only gave us ideas on how to re-vamp our yard, but they designed and executed the most perfectly poured concrete project for us.

Concrete Designs' super friendly, but extremely professional team realized this dream project for us not only efficiently but also quite rapidly! They were all very knowledgeable in their field and all of our questions were always fully answered.

Finding out how affordable decorative concrete really was, compared to interlock and/or other stones, was also a big surprise to us. We were able to stay within our budget and we were able to install long-lasting concrete that will outlast the life of our house! Unlike with interlock or other stone projects, we have no weeding to do between each laid stone and there is no shifting, moving or waving in the concrete as it often occurs in stone projects.

It has already been over 7 years since we have had our concrete work done and it still looks as beautiful as it did on the very first day it was installed.

We could not be any happier with our choice of material but mostly, with our choice of contractor! Concrete Designs of Ottawa treated us with respect and they made sure to discuss every issue (especially the minor details the less experienced one might overlook and forget about), and they make sure to meet all our satisfactions.

It is always important for my wife and I to hire a company with an A+ reputation with Better Business Bureau and to my knowledge, Concrete Designs of Ottawa always maintained that well deserved A+ rating!

The company's fully written warrantee, along with the BBB rating, were a few of the many comforting and positive things that we appreciated and that made us feel at ease when we signed up with Concrete Designs of Ottawa.

I recommend Concrete Designs of Ottawa to anyone wanting beautifully designed decorative concrete work done around their home or business. The company's years of experience in the field and the company's success in achieving excellence in each job it undertakes can only bring value to any home or business. Good luck

to all of you who will decide to tackle a concrete project... but no luck is needed for those who will entrust their concrete project in the hands of Concrete Designs of Ottawa. You will be able to go about your renovations 'worry free'!

To whom it may concern:

The entire team from Concrete Designs of Ottawa were very pleasant and friendly. They were professionals and experts in their field.

They came up with a beautifully designed display for my business. The way the steps are designed brings so much more elegance to the concrete stairs. Moreover, the stained border adds so much richness to the entire look!

I could not be any happier from the result of this display. The overall look of the business' landscape appears smarter and more polished... I receive so many nice compliments on a daily basis from my customers.

I strongly recommend Concrete Designs of Ottawa to anybody wishing for a new landscape or for any concrete work.

Either for re-vamping any old concrete or for a brand new design, decorative concrete is surely the way to go! Patios, driveways, concrete floors and counter tops, pool decks, waterfalls, etc..., the sky is the limit when it comes to concrete designs!

This recommendation comes from a truly satisfied customer.

I must admit that it was nothing but a pleasure to have had the opportunity and the chance to deal with a professional company like Concrete Designs of Ottawa!

The work they completed for us was realized with such perfection and the beauty and elegance it gives out is as such that the compliments on our landscaping are continuously pouring our way.

I strongly suggest Concrete Designs to anyone who is looking to get concrete work done... You will not regret it!
